Brief profile
<p>VELTICON Ltd. is a business incubation provider for Start-Ups and Spin-offs, based in Limassol-Cyprus, that supports businesses since 2012. We establish international consortiums and public-to-private partnerships; in doing so we bridge the gap between research and the market, helping innovative enterprises develop their scientific and technological breakthroughs into viable products and services with real commercial potential. Our areas of activity are, Health, Energy, Marine, Security, Information and Communication Technologies (ICT), Culture and Tourism.</p> <p>VELTICON Ltd, has long been home as the most efficient gateway to Europe, for international companies wanting to operate their regional headquarters from Cyprus. Additionally, we offer working and conference office with secretarial support and translation services in Cyprus and Greece for rent to meet any short or long-term requirement.</p> <p>We seek partnerships with investors/stakeholders to boost investment into innovation and technological development. We invite business angels, venture capitalists, innovation accelerators, banks and fund managers seeking to invest, in exchange of equity in promising ideas and products with a high market potential. Our expertise in business development services paves the way for our common strategic plan to successfully build a dynamic commercialization environment for everything and everyone.</p> <p>In constantly aiming to increase private contribution in funding innovation research projects with excellent opportunity for profitability and sustainability, we bridge Academia with Business for the benefit of the entrepreneurship at its core.</p> <p>VELTICON Ltd is proud to be a true business enabler, developer, demonstrating an holistic, tailor-made and well-balanced mix of all critical services required to safeguard with tenacity the success of Major Events, Governmental and Private Projects, offering best value in terms of expenditure in the fields of Business-Project Management, Econometrics, FinTech, Internet of Things, Big Data Analysis, Medical Care, Environmental protection, Societal Challenges and Bio-informatics Services.</p>

The vision of VELTICON Ltd. is to develop exactly this business relationship and partnership with our customers & partners, offering Business Consulting Services and research, complied with the highest business standards, and guaranteeing a safe future regarding upgrades and technical support. Furthermore, we are looking forward to establishing sound Spin-Offs and interdisciplinary collaborations. In detail our solutions include:

Management and Maintenance of Econometric Models & Descriptive/Statistical data and supply of the respective professional services; models to mitigate risks / Support, training and project management services regarding the IT systems including software and hardware. / Consulting services for the administration, management and implementation of IT and other relevant projects / Marine investments. Our commitment is to provide services and solutions combining the existing technologies and IT solutions on our customer's site, resulting to cost control regarding new investments.

Velticon Ltd is proud to be a true business enabler, developer, demonstrating an holistic, tailor-made and well-balanced mix of all critical services required to safeguard with tenacity the success of Major Events, Governmental and Private Projects, offering best value in terms of expenditure in the fields of Business-Project Management, Finance, Internet of Things, Big Data Analysis, Medical Care, Environmental protection, Societal Challenges and Bio-informatics Services.
